
Cancel account

I set up an account a while back and don't want it any more. I've looked a couple of times of how to cancel the account and can't find any link or instructions of how to do this? I access from two terminals and would like to cancel both if possible. Please let me know how to do that.

Thank you,
Te

there is no way to cancel. we will never email you or spam you.
just forget about it. you picked a fake username and a fake password as
any you choose will work. your email address just sits in a database that
we will never use to contact you with or let anyone else have it.

thanks for using us! it is as simple as that.
